

The FCC should NOT implement any proposal that would lessen Indiana's Telephone Privacy Law protection.

It has been so wonderful to come home in the evening without being called by annoying telemarketers. I don't need them calling me with courtesy calls or trying to sell me something. They should consider other methods to sell their service or product. I receive at least 15 calls per week. How annoying!!!

Indiana's Telephone Privacy Law has been a blessing!!!!!! PLEASE DON'T CHANGE IT!!!!!!!
